Technical Experience

SMARTconsent / Founder

MAY 2015 - SEP 2016, CHICAGO, IL

Conceptualized and prototyped a computerized system to support the Presidential "It's On Us" Challenge.

Developed a "silent alarm" and audio interventional model system for a person to trigger a prerecorded interventional script in a consent emergency.

Filed a US Patent Application based on work.

Business & Decision / Technology Consultant (SAP BI)

JULY 2007 - MAY 2009, CHICAGO / LYON, FRANCE / MONTREAL

Designed and implemented over 1000 KPI Computations for client business needs.

Accelerated business decision-making cycles on repair or replace provisioning.

Helped make international recycling and resale choices by cellular firm more logistically robust.

Assisted more senior programmers and consultants with bug tracking, documentation, and smaller units of code completion.

Supported firms during complex SAP BI upgrade cycles.

Helped organize *Business & Decision's* Quarterly Subject Matter Expert Conferences

Teaching Experience

General Sciences, Chemistry Instructor (and Substitute)

SEP 2013- MAR 2018, CLEVELAND, OH; SKOKIE, IL; SHANGHAI, MAINLAND CHINA

Skokie Substitute Cooperative

Ameson AP+ Program

The Princeton Review

Cleveland Heights-University Heights School District

South-Euclid Lyndhurst School District

Relayed complex technical models to unskilled learners in bite-sized pieces.

Taught audiences of all ages and all abilities, from K -12, from Gifted Education to Special Ed.

Helped students set and reach with steadfast effort immediate and long-term learning goals, coaching students through the most difficult problems in High School Chemistry.

Developed and delivered standardized exams to assess student performance.

Filled in for homeroom teachers from over a dozen different teaching specialties, managing over 100 diverse classrooms.
